

Club Members Operations Manual

Standard operating procedure for Core (1st Yr), SubLeads (2nd Yr) & Leads (3rd Yr)

1. Event Pool & Task Bidding ('Tick to Claim')

All incoming event coverage requests appear in the 'Event Pool' on your Club Dashboard.

- **Self-Assignment:** Any active club member can click 'Tick to Claim (Photographer)' or 'Tick to Claim (Uploader)' to take responsibility for an unassigned event.
- **Public Assignee Names:** Once claimed, your name is prominently displayed on the event ticket so all team members know who is handling photo and upload duties.

2. Urgent Event Alert System

Events scheduled to start in less than 1 hour with unassigned photographer/uploader slots are highlighted with a glowing red 'URGENT' badge. Club members available on campus are encouraged to immediately claim these tickets.

3. Peer-to-Peer Coverage & Replacement Requests

Chitrachaya features a flexible task transfer workflow:

- **Direct Coverage Requests:** Leads and SubLeads can click 'Request Coverage' on an event to ask a specific team member to take an open role.
- **Task Replacement / Handoff:** you are assigned to an event but encounter an emergency, click 'Replace' next to your name to send a replacement request to another member.
- **Confirmation Rules:** Task handoffs ONLY take effect when the targeted member accepts the request in their 'Coverage Requests' panel. If declined, original assignment remains intact.

4. Progress Tracking & Media Delivery

Assigned members must keep the event pipeline updated:

- **Update Progress:** Click 'Update Progress' on your assigned tasks to advance the stage (Assigned -> In Progress -> Uploaded -> Delivered).
- **Attaching Drive Link:** When photos are ready, paste the public Google Drive folder link in the Update modal to complete delivery and notify the requester.

5. Team Directory & Role Management

Access the 'Team Directory' from the top navigation bar to view all active members and manage roles:

- **Leads (3rd Year):** Can directly change any member's role to Lead, SubLead, Core, or Event Requester using the role dropdown in the directory.
- **SubLeads (2nd Year):** Can directly promote new applicants from 'Event Requester' to 'Core (1st Year)'.
