

1. APP QUICK START & INSTALLATION INSTRUCTIONS

Follow these 3 essential setup steps to use Chitrachaya on mobile and desktop devices:

- > **Step 1: Open Official URL** Visit <http://localhost:5173> (or official college portal) on Chrome, Safari, or Edge. Log in exclusively using your official @iiitkottayam.ac.in Google email.
- > **Step 2: Add to Home Screen (PWA)** Android/Desktop Chrome: Tap the 3-dot menu and select 'Install App' or 'Add to Home Screen'. On iOS Safari: Tap the Share button and select 'Add to Home Screen'. This installs Chitrachaya as a standalone mobile application.
- > **Step 3: Allow Push Notifications** When prompted upon first login, tap 'Allow Notifications'. This enables instant real-time alerts for event approvals, photographer assignments, coverage replacement requests, and IT camera status updates.

2. IT DASHBOARD & CAMERA HANDOFF CONTROL

IT Server Room Staff access the dedicated IT Dashboard (/it) to process camera handoffs securely:

- > **Pending Requests Tab** Review pending camera requests. Inspect the member's official Digital ID Pass (Name, Email, Roll ID, Role).
- > **Contact Verification** Verify the assignee's primary phone number and fallback Lead phone number.
- > **Approve Handoff** Click 'Approve Handoff' to hand over the camera equipment. The system logs your staff ID as the approver.

3. TRACKING ACTIVE CAMERAS OUT & RETURNS

- > **Active Handoffs Tab** View real-time list of issued cameras and who currently holds the equipment along with clickable phone numbers.
- > **Mark Camera Returned** When the member returns the camera equipment to the IT Server Room, click 'Mark Camera Returned to IT'.
- > **Audit Trail** All completed returns and rejected requests are logged under the 'History' tab for record keeping.

EQUIPMENT SAFETY PROTOCOL

Always verify Digital ID and contact phone numbers before handing over camera equipment. In case of emergency or delay, contact the fallback Lead phone number immediately.
